

White Paper

The Reward Token (RWT) is one of the first community driven deflationary tokens that seamlessly combines the concept of GameFi, DeFi & NFT that constantly creates rewards for everyone

The Crypto Currency Environment

Cryptos are used for transactions such as buying and selling goods and services, as store of value, as ecosystem tokens and many other purposes. This is made possible with the use of an online ledger with strong cryptography. The use of cryptography makes it difficult to double-spend or counterfeit. One defining feature is that it is not regulated by any central authority, making it a tax-free operation system. Cryptocurrencies work by using Blockchain technology spread across various computers.

The blockchain is a digital record for transactions made with cryptocurrencies. It uses E-wallet where these transactions are stored. The transactions are well secure and managed and to be a part of this network, platforms such as exchanges and peer-to-peer transactions are available.

There are over 6,700 cryptocurrencies traded globally and with \$33b+ worth of memecoins. The rising giant player in the cryptocurrency market is the decentralized crypto exchange system.

It allows new coins to get listed for free, invariably allowing users new investment opportunities, friction-less and almost gas-free. DEX exchanges are fast, reliable, and easy to use. Another perk is that they come with amazing liquidity benefits, including users' rewarding for helping the platform thrive. In this environment, RewardToken is coming to the market combining the best benefits for institutional and retail investors. With the skyrocketing adoption of blockchain, delving into trending opportunities is a smart move for any investor.

RewardToken Overview

RWT comes with sophisticated features such as automatic buybacks inspired by the innovative Minidoge Token in addition to automatic and manual burns and static reflections for all holders.

Before Q4 the team will unveil the RWT Debit card that will give you the ability to withdraw fiat in most ATMs around the world but most importantly discounts, special privileges and exclusive offers globally just by presenting your card. This will revolutionize the industry. You will be able to make money, win rewards and also withdraw your funds in fiat anywhere, any time!

Some of these rewards are in the form of roundtrip to different destinations, tickets to matches, airdrops in the form of BNB, ETH & ADA, Michelin Star dinners, luxurious hotel stays globally and many other surprises that we have planned for you. These Rewards will be given on a consistent basis through a raffle mechanism designed to be effective and transparent

Our token is offering an exclusive staking program designed to maximize your investment through our future GameFi Reward Application. The rewards that this token will give you are countless and we truly hope you can enjoy all the benefits in this amazing journey. Welcome

Launch

Anyone can buy the RewardToken after our official Launch on Pancakewap, the RewardToken has no institutional or investors ownership. The official launch will be held shortly after the presale. You can purchase the token by creating a Metamask Using BSC Network, connecting to Pancakeswap & swapping BNB for RewardTokens. RWT has been fully audited and declared safe. Please click this link to see the full audit of the project conducted by techrate.org

Liquidity Pool

The use of a Liquidity Pool allows RewardToken to be traded with limited slippage. The LP is large enough to allow users to do transactions as they please and will be locked to ensure the stability of the price while creating a floor price. All the BNB raised in the Pre-Sale will be used for injection into the liquidity pool

Token Economics

Price

The RewardToken price fluctuates following the standard supply and demand basics of finance and economics. Its shrinking supply is allowing for higher price floors. On our website you can see a live tracker of its price, circulating supply and burned supply. If you are a token holder, you will notice your holdings steadily increasing due to the reflections. We also use autoboot function to stabilize the price and prevent large dumps by locking liquidity in addition to every 5.00% of every transaction going to the locked liquidity pool.

Roadmap

The RewardToken community and ecosystem aims at building a long-term, engaged, trusted and thriving play in the cryptocurrency world. Numerous developments have begun and RewardToken intends to introduce constant updates as the community goes. The full roadmap is visible on our website and it's constantly updated. RewardToken is giving back to its community in various ways, but mostly in terms of supporting the healthy growth of our token. We focus mainly on marketing, though our full time marketing experts in addition to an agency helping us building the brand. Additionally, we prepare for a major exchange listing shortly after the Pancakeswap launch. You can be a part of RewardToken by joining its channels such as Twitter, Telegram, Instagram and Medium.

Safety

Safety and protection for token holders is the priority for the wellbeing of the community. The necessary security measures are in place to ensure this is achieved. The token is fully audited in order to ensure that everything is ready for the launch

REWARDIFI (Reward Game application)

Our team is visionary and looking forward to the future. That's why our project will embrace the latest trends and embrace the most advanced developments within the industry to deliver value to you; the holder of our token.

Rewardifi is a revolutionary Defi Gaming application built on the binance smartchain and powered by Reward Token. Rewardifi rewards RWT holders for playing games and performing simple tasks.

Binance Smartchain rapidly powers most of the leading games in the blockchain space with very low transaction fees and this is the reason we decided to build on binance smartchain. Rewardifi will disrupt the gaming and reward industry through:

STAKING

Stake your RWT on Rewardifi app and earn Rewards on a daily basis.

GAMING

Earn rewards playing interactive games on Rewardifi gaming application, withdraw and Trade your rewards for other tokens.

LOTTERY

You can earn massive rewards by Joining our weekly and monthly draws by simply holding RWT in your wallets.
